METHODS
finder

APPLICATION

- Simultaneously cleans and renews the preserving/protective film
- For maintenance cleaning and care of washable floor coverings (PVC, natural and artificial stone, clinker, linoleum, natural rubber, etc.)
- Suitable for spray cleaning
- Can be used undiluted to apply a self-shining protective film

PROPERTIES

- Slightly alkaline
- Lightly scented
- Low lather

GOOD TO KNOW

- A self-shining polymer and wax-based coating is created when used undiluted (initial treatment/protective film)

RECOMMENDED APPLICATION METHOD

Scrub drying in a single work step

Pour the cleaning solution into the fresh water tank. Remove any loose dirt by means of dust-binding mopping/dry vacuuming. Scrub-dry the floor covering thoroughly with a scrubber-dryer and a suitable pad or brush.

Spray cleaning

Remove any loose dirt by means of dust-binding mopping/dry vacuuming. Spray on a small amount of the cleaner and work it in immediately in a circular motion, using with a single-brush machine and red pad. Reverse or replace pads when dirty or worn out. Polish dry if needed.

Wet mopping, single work step

Remove any loose dirt (e.g. dust-binding mopping/dry vacuuming). Soak the mop with cleaning solution, wring it out well, or use a pre-wetted mop. Wet mop the floor covering.

STORAGE

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use.

Durability (unopened): 24 Month
