

PRODUCT DATASHEET

Kitchen cleaning - Maintenance cleaners

Wetrok Levanex

The efficient deep cleaning specialist for stainless steel and glass ceramic - ideal for vertical surfaces

Wetrok Levanex

pH value (Concentrate): 6–7

Important ingredients:

Surfactants, Solvents, Abrasive agents

Recommended dosage:

Maintenance cleaning
undiluted

METHODS
finder

APPLICATION

- For cleaning washable, solvent-resistant surfaces (stainless steel, glass ceramic, enamel, etc.)
- Designed for use in the foodstuffs industry (canteens, bars, industrial and manufacturing plants, etc.)
- Efficient removal of stubborn incrustations and dirt, particularly on vertical surfaces
- The abrasives have a tight grit size distribution, ideal for deep cleaning of brushed stainless steel surfaces

PROPERTIES

- High polishing performance
- Non-abrasive
- Adheres to vertical surfaces
- Contains solvents
- Non-foaming
- Non-corrosive
- Unscented

GOOD TO KNOW

- Adheres ideally to vertical surfaces thanks to thixotropic flow behaviour
- Precise application using a dispenser or spray bottle
- After a short contact time, the dissolved dirt can be removed with a microfibre cloth/white mini pad

PLEASE NOTE

- Shake well before use
- Use on solvent-resistant surfaces only

RECOMMENDED APPLICATION METHOD

Wet scrubbing (abrasive liquid cleaner)

Apply the cleaner to a damp microfibre cloth or directly to the surface/equipment to be cleaned and perform wet scrubbing. Rinse the cleaned surface/equipment with clean water and wipe it dry.

STORAGE

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use.

Durability (unopened): 24 Month
