Minatol Nova

pH value (Concentrate): 9–10

Important ingredients:

Abrasive agents, Water, Soap, Skin care additive, Fragrances, Preservatives

METHODS
finder

APPLICATION

High-performance hand cleansing paste with mineral abrasive agent. Removes oil, grease and wax. Ideal for use in industry and trade. Does not contain any solvents or synthetic surfactants. Lightly scented, lightly alkaline, not fluid.

PROPERTIES

- White/pasty
- Abrasive
- Solvent-free
- Lightly scented
- Slightly alkaline

GOOD TO KNOW

- Soap based on natural tallow and coco fatty acids
- The high abrasive agent content provides for additional mechanical removal of dirt
- Lather hands with a sufficient amount of hand cleansing paste, leave for a short while to take effect, rinse well and dry thoroughly (using paper towels)
- Skin that is stressed by dirt, water and chemicals should be treated with skin protection products
- Matching paste dispenser: Kamar 103, Art. No. 5825000

PLEASE NOTE

- Incorrect handwashing can cause skin reactions (allergies), as soap residue is often left on the skin after washing. It is therefore important to rinse the hands well and dry them thoroughly.

STORAGE

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use. Protect against frost.

Durability (unopened): 24 Month
