

# PRODUCT DATASHEET

Floor cleaning - Maintenance cleaners

## Wetrok Reshine Sport

Highly effective DIN 18032-certified deep cleaner and maintenance cleaner for gymnasiums - ideal for removing handball adhesives

# Wetrok Reshine Sport

**pH value (Concentrate):** 10.5-11.5

**Important ingredients:**

Surfactants, Soap, Solvents, Fragrances

**Recommended dosage:**

**Maintenance cleaning without resin**

0.05 l - 0.1 l/10 l

**Intermediate cleaning with resin**

0.2 l-0.5 l/10 l

**Deep cleaning with resin**

0.5 l-1.0 l/10 l

**METHODS  
finder**

**APPLICATION**

- Highly effective DIN 18032-certified deep cleaner and maintenance cleaner for gymnasiums
- Optimized for the removal of all types of handball adhesives
- Does not affect the field markings
- For cleaning water-resistant floor coverings
- Suitable for washable, solvent and alkali-resistant surfaces and floor coverings (PVC, natural and artificial stone, clinker, linoleum, natural rubber, etc.) in gymnasiums

**PROPERTIES**

- Low lather
- Slightly alkaline
- Lightly scented
- Conforms to DIN 18032

**GOOD TO KNOW**

- Wetrok Reshine Sport removes both water-soluble adhesives and natural tree resins
- For heavy soiling increase dosage to max. 10% and/or opt for 2-step scrub drying. (Contact time 10 minutes. Important: the surface must be kept wet during contact time)
- Alternatively, stubborn adhesive residues can be manually sprayed with Reshine Sport 10% in advance and then removed by means of scrub drying in a single work step.
- After the application of cleaning additives, the channels of the scrubber-dryer must be thoroughly rinsed with fresh water

**PLEASE NOTE**

- Do not apply to floors with additional coating
- Floor must be kept wet during contact time!
- The scrubber-dryer including optionally available dosing system must be thoroughly cleaned after each use according to the operating instructions
- Consult the label and product data sheet for more information

**RECOMMENDED APPLICATION METHOD**

**Scrub drying in a single work step**

Pour the cleaning solution into the fresh water tank. Remove any loose dirt by means of dust-binding mopping/dry vacuuming. Scrub-dry the floor covering thoroughly with a scrubber-dryer and a suitable pad or brush.

**Scrub drying in a two-step process**

Pour the cleaning solution into the fresh water tank. Remove any loose dirt by means of dust-binding mopping/dry vacuuming. Scrub the floor covering thoroughly with a scrubber-dryer and a suitable pad or brush (without vacuuming). Leave the cleaning solution to take effect. Observe the contact time! Do not allow to dry out! Follow up with the scrubber-dryer (lower suction nozzle). Scrub-dry the floor covering.

**STORAGE**

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use.

*Durability (unopened): 24 Month*
