Wetrok Shampoo

The pH-neutral carpet cleaner for all water-resistant wool and synthetic carpets

Wetrok Shampoo

pH value (Concentrate): 6–7

Important ingredients:

Surfactants, Polymers, Fragrances, Preservatives

Recommended dosage:

Intermediate cleaning

0.5–0.8 l/10 l

Deep cleaning

1–1.2 l/10 l

METHODS
finder

APPLICATION

- For basic/intermediate cleaning of synthetic and woollen carpets
- Dries to form powdery residue that can be vacuumed off along with the loosened dirt

PROPERTIES

- High-lather
- pH-neutral
- Lightly scented
- No brighteners

GOOD TO KNOW

- Combine with subsequent spray extraction to achieve top deep cleaning results as part of your basic cleaning process

RECOMMENDED APPLICATION METHOD

Wet shampooing

Dry or brush vacuum the entire textile floor covering. Use a suitable cleaner to pre-treat the stains.

On a separate piece of carpet use a single-brush machine and shampoo brush to develop a lather. Work on the edges and corners with a soft hand brush, beat in the lather, do not rub! Shampoo the floor covering with the single-brush machine in circular movements. Brush the carpet pile with a pile brush and allow the covering to dry completely. Vacuum the dry floor covering using a brush or dry vacuum cleaner.

STORAGE

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use.

Durability (unopened): 24 Month

Wetrok AG shall have no liability whatsoever for damage caused by incorrect use. Observe special cleaning and care instructions from the floor covering manufacturer.
