## Monovac BeFree: Take it to the next level!

Put away your corded vacuum cleaner! Join the wave of modern dry vacuum cleaning with the battery-operated Monovac BeFree – cordless, free and easy. It feels like floating on clouds. With the cordless Monovac BeFree you can rock any room, no matter how obstructed or occupied. Liberate yourself from cumbersome cords and bring freedom, flexibility and joy to your everyday cleaning routine!

P.S.: We think you and your team won't want to let go of the BeFree once you have used it for the first time!

### **Touch'n'Clean:** Switch on and off by touching the handle

Your vacuum cleaner is ready when you are: touch the handle and the vacuum cleaner turns on. Let go of the handle and it switches off. It doesn't get any easier than that!

### **Battery-operated:** move about the room freely

Don't waste any time thinking about sockets, potential passers-by or cables wrapped around chair legs. The Monovac BeFree lets you move about the room with complete freedom. It doesn't get more flexible than that!

### **HEPA 13 filter:** clean as clean can be

If you equip your vacuum cleaner with an HEPA 13 filter (available as an option), dust and bacteria are filtered at the maximum level. It doesn't get any more hygienic than that!

## Innovative Touch'n'Clean technology:

### Consume up to 30% less energy

The Monovac BeFree has an amazing mechanism for switching on and off:

- Grasp the handle ⇒ The vacuum cleaner starts up
- Let go of the handle ⇒ The vacuum cleaner stops

That's not only convenient, but also environmentally friendly! Whilst conventional vacuum cleaners are often left with the motor running, even when not actually cleaning, the Monovac BeFree only runs when it is actually being used. By cutting out this 'idle' operation, it's possible to clean more areas without any additional energy consumption.

#### Lithium iron phosphate battery: What are the benefits of this type of battery?

Not all types of lithium are created equal: for safety reasons, Wetrok uses modern lithium iron phosphate instead of lithium manganese oxide. A major advantage of this LiFePO4 battery type is extremely long-lasting lifetime and power. Therefore, the integrated battery in the Monovac BeFree is given a warranty of 2 years, and the expected lifetime is 2,000 full charging cycles..

**Be battery-operated. Be free.**

#### Ideal areas of use: where do you use the Monovac BeFree?

- Building with few sockets (no cable, no replugging)
- Entrance areas (no cable, no trip hazard)
- Obstructed rooms (no cable, no tangling)
- Occasional dirt (no cable, no loss of time)
- Hygiene-sensitive buildings (no dust, no bacteria)
- Day-time cleaning (no noise, no disruption)

**Be free. Be flexible.**

#### Example calculation: how much time do you save thanks to the Monovac BeFree?

Tests have shown that cleaning professionals handle roughly 60 square meters more area per hour with the Monovac BeFree compared to corded vacuums. Time is saved because there is no need for replugging, and work proceeds more quickly because the cable cannot get stuck on obstacles anymore.

#### Specific comparison of cleaning performance in 45 minutes

Monovac BeFree:

30

Rooms

Conventional corded vacuum cleaner:

20

Rooms

**Be flexible. Be efficient.**

#### Battery life: Endless power

With a 45-minute battery life per full charge you get astounding area performance and no need for replugging. You can get the dust and dirt off your floors in no time with the Monovac BeFree. It doesn't get any more efficient than that!

#### Wireless: no cable, no hazard

Tripping over cables? Damaged cables? Defective socket? These scenarios all belong to the past with the cordless Monovac BeFree. It doesn't get any more secure than that!

# Technical Data

## Monovac

Model: BeFree

Art. no.: 40773

## Including

Combination nozzle 30

Telescopic suction tube M/D

Suction hose M/D compl.

Pre-filter Monovac/Durovac

Waste air filter Monovac

Fleece bag Monovac/Durovac

Joint nozzle M/D

Upholstery nozzle M/D

LED charge indicator

Charger

Handle Touch'n'Clean

Charging cable Touch'n'Clean

## Technical Data

Capacity	3 l
Weight	8.0 kg
Total height	38 cm
Total length	40 cm
Total width	32 cm
Vacuum	120 mbar
Airflow rate	30.7 l/s
Vacuum motor output	320 W
Sound power level (EN ISO 4871)	65 dB(A)
Sound pressure level (EN ISO 4871)	53 dB(A)
Rated voltage	36 V
Lithium battery	36 V/ 8.8 Ah
Battery life	¾ h
Time for full charge	4 ½ h

## Nozzles

41600	Combination nozzle 30
41601	Combination nozzle 50
41602	Basic Combination nozzle
41604	Nozzle with rolls 30
41605	Nozzle with rolls 36
41613	Turbo nozzle
41616	Joint nozzle M/D
41617	Upholstery nozzle M/D
41618	Brush nozzle M/D
41619	Radiator nozzle M/D
41620	Universal brush nozzle M/D
41625	Nozzle set 35
41630	Connector 35/37
41631	Connector 37/35

## Filter bags

42613	Fleece bag M/D 6 litres (10 pc.)
-------	----------------------------------

## Tubes and hoses

41636	Tube M/D 50 cm
41635	Tube extension 25 cm
41637	Telescopic suction tube M/D
41641	Suction hose grey antistat. complete
41644	Antistatic hose black complete

## Filters

42083	Pre-filter M/D
42084	Washable pre-filter M/D
52088	HEPA 13 filter Monovac
42087	Waste air filter Monovac

## Accessories

36975	Charger
42032	Scented platelets (10 pc.)
