

wetco maintenance cleaner
Simple. Effective. Affordable.

wetco line:

Wetrok quality at an affordable price

How many different maintenance cleaners do you use at your site? Too many?

At Wetrok, we believe that maintenance cleaning should be one thing above all else: simple. Especially when time is of the essence. That's why we developed the wetco line: five different maintenance cleaners for all applications. Clear out your cleaning cabinet, cut your costs and enjoy a product line that is sustainable and easy to use. Safe and environmentally friendly cleaning products do not have to be expensive!

The wetco line meets the top five customer requirements:

“No-nonsense maintenance cleaning”

The wetco line comprises five maintenance cleaners: a floor cleaner, a surface cleaner, a glass cleaner and two sanitary cleaners. Different colours make it easy to tell them apart. Why overcomplicate things when you can keep things simple?

“No harm to the environment”

Environmental friendliness should be a matter of course, even for low-priced products. The wetco line is sustainable: the cleaners are certified with the Nordic Ecolabel, confirming that they are highly biodegradable. Why pollute the environment when you can conserve resources?

“Maximum safety for personnel”

There is little time for instruction in everyday cleaning, and so products that are safe to use are very reassuring for staff members. The wetco line is safe: the products contain no allergens, critical preservatives or perfumes. Why take risks when there is a safe option?

“High quality at a low price”

Cleanliness need not break the bank. The wetco line boasts an attractive price-performance ratio. Simple and straightforward. Why spend more when you can spend less?

“Fewer product variants, fewer mistakes”

The wetco line reduces the number of cleaning agents used, making for a less complex cleaning process. The polyvalent nature of the products means you can cut your inventory down to just three to five maintenance cleaners. Why use ten cleaning products when you can use just five?

Full range of wetco products

Five maintenance cleaners to cover the entire building

wetco floor

Floor maintenance cleaner

Thanks to its **wide range of applications**, wetco floor will help make space in your cleaning cabinet. Whether used in a scrubber-dryer or to clean floors manually, wetco floor ensures sparkling clean floors.

The big plus: wetco floor can be used for a wide range of floor coverings, from synthetic coverings and sealed wooden flooring to artificial and natural stone.

- Slightly alkaline
- Non-scented

Application methods:

- Manual wet mopping
- Scrubber-dryer machines

Suitable for all washable floor coverings and surfaces.

wetco surf

Surface cleaner

wetco surf is the specialist for cleaning all types of surfaces. Glass, office desks and door handles can all be cleaned in no time with wetco surf. And **quick, streak-free** drying is guaranteed.

The big plus: wetco surf can also be used to manually clean floor coverings.

- pH-neutral
- Non-scented

Application methods:

- Manual wet mopping
- Manual wet wiping
- Manual foam cleaning

Suitable for alcohol-resistant, washable surfaces and floor coverings.

wetco cristal

Glass and surface cleaner

The glass and surface cleaner wetco cristal is ideal for cleaning windows and glass surfaces. Oily and greasy dirt is completely eliminated to leave surfaces crystal clear.

The big plus: wetco cristal is **ready to use** so you can start cleaning right away.

- pH-neutral
- Non-scented

Application methods:

- Manual wet wiping

Suitable for washable and solvent-resistant surfaces.

wetco san

Sanitary maintenance cleaner

The sanitary maintenance cleaner wetco san reliably and completely removes limescale and dirt from fittings, shower walls and toilet seats. It is ideal for low to moderate water hardness.

The big plus: the **fast-acting acid** in wetco san is gentle on chrome-plated fittings.

- Highly acidic
- Non-scented

Application methods:

- Manual wet mopping
- Manual wet wiping
- Manual foam cleaning

Suitable for **acid-resistant**, washable surfaces and furnishings.

wetco san neutral

Neutral sanitary maintenance cleaner

As the name suggests, the sanitary maintenance cleaner wetco san neutral is acid-free. This makes it the ideal choice for all acid-sensitive, yet heavily soiled, areas in the bathroom (e.g. marble).

The big plus: wetco san neutral is **gentle** on sensitive surfaces and dries quickly without leaving any streaks.

- pH-neutral
- Non-scented

Application methods:

- Manual wet mopping
- Manual wet wiping
- Manual foam cleaning

Suitable for **acid-sensitive**, washable surfaces and furnishings.

Foam instead of liquid

Are you committed to protecting the health of your employees and the environment?

Then use wetco surf, wetco san and wetco san neutral paired with Wetrok's "wet wiping with foam" method!

Your advantages:

- **Safe:**
No breathable spray particles in the air
- **Eco-friendly:**
90% less water consumption, 30% less chemicals
- **Ergonomic:**
No need to wring out cloths or drag heavy buckets around
- **Simple:**
Dosage instructions directly on the bottle
- **Time-saving:**
20% less time required
- **Excellent results:**
No drying necessary, no streaks
- **Resource-friendly:**
Reusable foam bottle

Tip: Foam cleaning with wetco san and wetco san neutral is also highly practical and efficient for cleaning toilets.

Nordic Ecolabel

The sustainable and highly biodegradable wetco line

Are you looking for a cleaning product that not only provides first-class cleaning results, but is also environmentally friendly? Then the wetco line is perfect for you. It is not only highly biodegradable, but also follows a sustainable overall concept. The cleaning line has been awarded the Nordic Ecolabel. The eco-label has strict certification requirements and demands the use of sustainable raw materials and measures to protect the natural resources of our planet.

Maximum reduction is therefore a top priority not only in terms of the number of cleaning products, but also in the use of resources: the raw materials used, the quantities used and the packaging.

The most important criteria of the Nordic Ecolabel in brief:

User Protection

The cleaning products must not contain any allergenic perfumes or preservatives. In addition, the raw materials and fragrances used must comply with international guidelines.

The wetco products do not contain any form of perfume, and adhere to all guidelines.

Animal Protection

Strict rules regarding dilution volume and biodegradability are in place to prevent harm to aquatic organisms. Furthermore, ingredients must not accumulate in organisms (e.g. fish) through ingestion from the environment or food.

The wetco products do not pose any danger to waters or aquatic life, and are highly biodegradable.

Resource Protection

The packaging elements must consist largely of recyclable materials. Natural resources must also be conserved (reduced use of chemicals and water; sustainable raw materials).

The wetco cleaning product containers are 100% reusable. The surfactants used come from sustainable sources. The environmentally friendly foam application ensures the lowest possible water and chemical consumption.

The Nordic Swan is the official eco-label of Scandinavia and is constantly gaining in international importance. It has two aims:

- To reduce the environmental impact of the production and consumption of products.
- To support users and buyers in choosing the most ecologically safe products.

Customer Opinions

The wetco line: popular with customers around the world

“At Förenade Service, we always achieve flawless results with the Nordic Ecolabel-certified wetco line. The foam form means our employees are no longer exposed to aerosols, significantly improving occupational safety levels.”

Linnéa Leisten Bergman,
Project Manager Sales and Environmental Strategy at Förenade Service AB (Sweden)

“Wetrok’s wetco line of cleaning chemicals provide our sites a simple, green and cost-effective range of chemicals. They gave us *the* green solution we were looking for via the internationally recognised Nordic Swan Ecolabel. The wetco line is extremely versatile meaning we use less products than before without compromising on standards. Who says quality can’t be affordable?”

Lee Stephenson,
National Cleaning Manager at Nuffield Health (United Kingdom)

Mops and Microfibre Cloths

Complete your cleaning equipment

Do you dream of perfectly spotless cleaning results? Then complete your wetco range with matching mops and cleaning cloths.
