Dust-binding mopping

Disposable

Description

Definition/Objective

Remove loose dirt without stirring up dust **using the cleaning textile.**

Suitable for smooth to slightly textured floors. Floors remain dry.

Note: Use a fresh cloth for each room to ensure maximum hygiene.

Preparatory work

Select suitable products according to the surface to be cleaned (type/square metres) and the type of soiling.

Put up the warning sign.

Main task

Take a disposable cloth from the pack and then tightly reseal the pack.

Activate oil-impregnated disposable cloths.

Attach the disposable cloth to the dusting unit and secure it in the two cloth holders on the front.

First dust along the edges of the room and under furniture, then dust the open space in slightly overlapping lines.

If the cloth is heavily soiled, move so that a clean part of the cloth is covering the dusting unit or change the cloth.

Remove the disposable cloth from the dusting unit. Gather and dispose of the dirt and the disposable cloth using the dustpan and brush.

Perform a visual check.

Final steps

Remove the warning sign.

Dispose of any waste.

Clean the cleaning equipment and replace if necessary.

Comments

- Wear the personal protective equipment (PPE) required by company regulations, safety data sheets or operating instructions.

- Always check in advance which product meets your requirements (see Wetrok Cleaning & Care Instructions).

Wetrok AG assumes no liability for damage caused by improper use or incorrect product selection.
