

PRODUCT DATASHEET

Disinfection - Wipe-down surface disinfection

Minatol Desocid

Surface disinfectant for indoor and outdoor pools and all types of sanitary areas - also suitable for foot fungus prophylaxis in foot-washing facilities

Minatol Desocid

pH value (Concentrate): 5.5–6.5

Important ingredients:

Surfactants, Biocide, Fragrances

APPLICATION

- Surface disinfectant and foot fungus prophylactic based on quaternary ammonium compounds
- Suitable for use in the public healthcare sector, as well as for indoor and outdoor pools, in wash, shower and changing rooms and all sanitary areas
- Especially suitable for use in foot-washing facilities in wet zone areas

PROPERTIES

- Bactericidal (standard bacteria)
- Yeasticidal (*C. albicans*)
- Limited virucidal effect (HBV)
- Foot fungus prophylaxis (trichophyton)
- Dyed blue

GOOD TO KNOW

- Aldehyde-free

PLEASE NOTE

- The contact time must not be less than specified!
- Note specific contact times

RECOMMENDED APPLICATION METHOD

Surface disinfection with disinfection cleaner

Disinfect the surface in a single work step, using a pre-wetted or lightly wrung-out mop, applying light pressure. Apply a sufficient amount of disinfectant. The entire surface must be wetted. Observe the contact time. Wear gloves!

DOSAGE AND APPLICATION TIME

Effectiveness	Testing methods	Dosage (%)	Contact time
Bactericidal, yeasticidal	DGHM	0.5	60 min
Hepatitis B virus (HBV)	DVG	0.5	60 min
Trichophyton		0.1	5 min

STORAGE

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use. Protect against frost.

Please refer to the product labels for information about the shelf life before opening.

Wetrok AG shall have no liability whatsoever for damage caused by incorrect use. Observe special cleaning and care instructions from the floor covering manufacturer.
