

# PRODUCT DATASHEET

Disinfection - Hand and skin hygiene

## Sterisol hand disinfectant 7106

Unscented hand sanitiser for hygienic hand disinfection  
(EN 1500)

# Sterisol hand disinfectant 7106

**pH value (Concentrate):** 6.5–7.5

**Important ingredients:**

Biocide, Lipid regulator

**METHODS**  
finder

## APPLICATION

Fast-action, unscented, alcohol-based hand sanitiser with lipid and moisture replenishing effect. Packaged under sterile conditions in a disposable sachet with dispensing valve. Effective against bacteria, fungi and enveloped viruses (vaccinia virus). For hygienic hand disinfection (EN 1500).

## PROPERTIES

- Bactericidal
- Yeasticidal (yeast fungi)
- Effective against enveloped viruses (vaccinia virus)
- Unscented

## GOOD TO KNOW

- apply the hand sanitiser onto dry hands (3 ml = 2 x dispenser pump actions)
- moisten all areas of the hand (including wrists), rub the fingertips of one hand in a rotating motion on the palm of the other hand, rub the tips of the thumbs in a rotating motion
- continue rubbing the skin of the hands until dry (at least 30 seconds)
- the collapsing sachets ensure ideal emptying (>98%) for optimized use of the product contents and reduced waste
- the tare weight of a 700 ml sachet is only around 11 g in comparison with a traditional dispenser bottle with a weight of around 70 g

## DOSAGE AND APPLICATION TIME

Effectiveness	Testing methods	Dosage (%)	Contact time
Hygienic hand disinfection	EN 1500	100	30 s
Surgical hand disinfection	EN 12791	100	90 s
Bactericidal	EN 13727	100	30 s
Yeasticidal	EN 13624	100	30 s
Vaccinia virus	EN 14476	100	30 s

## STORAGE

Store in original container at 15 to 25°C and protected from sunlight. Keep container closed when not in use.

*Durability (unopened): 24 Month*
