Wetrok Biosan

Sanitary cleaner – Deodoriser

Benefits:

For removing the smell of urine in sanitary facilities, subways, accesses and passageways.

Microbiological breakdown of the malodorous substances.

Application:

For maintenance cleaning of washable surfaces and equipment (sanitary porcelain, tiled walls, bathrooms, showers, washrooms and WCs, etc.).

Please note:

Shake well before use!

Wetrok Biosan should neither be used nor mixed with acid-based cleaners or disinfectants.

Do not use in the presence of food.

Properties:

pH neutral

Lightly perfumed

Recommended dosage (in cold water):

First treatment:

0.3 l / 10 l

Maintenance cleaning:

Surfaces

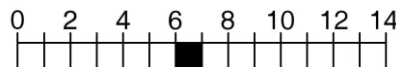

0.04 l / 10 l

Maintenance cleaning: Floor cleaning

0.08 l – 0.15 l / 10 l

pH value of concentrate:

Important ingredients:

Surfactants, solvents, fragrance, colouring, bacterial culture, chelating agent, preservatives

Storage/shelf life:

Store in original container in a cool, well-ventilated place.

Protect from frost. Keep container closed when not in use.

Shelf life (unopened): 24 months.

Recommended application methods:

First treatment

Remove any loose dirt, and dust mop or dry vacuum the floor. Apply a 3% solution of cleaner onto the surface using a mop. Where appropriate, apply the cleaner using a spray (wear mouth protection!) In situations of strong odour load, apply the cleaner more than once.

Floor / maintenance cleaning

Remove any loose dirt, and dust mop or dry vacuum the floor. Apply cleaner solution onto the surface using a mop. Where appropriate, apply the cleaner using a spray (wear mouth protection!).
