

Suitability Chart Melamine Pad

Wood and wood-like floor coverings

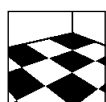

Intended for:

Wood and wood parquet (sealed)	○
Wooden parquet (oiled)	
Wooden parquet (waxed)	
Cork linoleum (sealed)	○
Cork linoleum (not sealed)	
Laminate flooring (smooth)	○
Laminate flooring (textured)	
Linoleum (smooth)	○
Linoleum (anti-static)	○
Gym flooring (wooden parquet with PUR sealing)	○

Cast stone, natural stone and mineral floor coverings

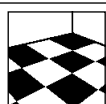

Intended for:

Asphalt	
Hard concrete, untreated (smooth)	●
Hard magnesite flooring	
Glazed ceramic tiles	○
Ceramic tiles, sintered (porcelain stoneware)	●
Unglazed ceramic tiles, earthenware slabs, clinker	○
Sanded cast stone, slabs and terrazzo	●
Cast stone and natural stone, acid-sensitive (textured)	
Cast stone and natural stone, acid-sensitive (sanded)	○
Natural stone, acid-resistant (sanded)	●
Natural stone, acid-resistant (textured)	
Natural stone, acid-sensitive (polished)	●
Natural stone, acid-sensitive (sanded)	○
Industrial flooring coated with synthetic resin (smooth)	●
Industrial flooring coated with synthetic resin (textured)	
Industrial flooring coated with synthetic resin with electrostatic properties (smooth)	○
Stone carpet	
Washed concrete	
Cement coating (smooth and coated)	○
Cement coating (coarse)	

Synthetic floor coverings

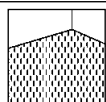

Intended for:

CV, Cushion Vinyl	○
Rubber floor coverings (smooth and slightly textured)	○
Rubber floor coverings (smooth and conductive)	○
Coin-grip rubber flooring	
Polyolefin	○
PU rubber granulate floor covering systems	●
PVC (smooth)	●
PVC (textured)	
PVC with electrostatic properties (conductive and anti-static)	○
Gym flooring (PUR sealed)	○

Textile floor coverings

Intended for:

Carpet (wool and mixed fibres)	
Carpet (synthetic fibres)	
Fibre bonded, needle felt	

● suitable ○ limited suitability (should be tested in a concealed place before use)
